Hospice Client Portal

Anova has crafted a secure platform, acting as a unified tool for facilities, patients, and relatives to access medical data and updates. This digital tool builds a link between Anova and its key stakeholders, facilitating automatic, smooth information distribution. It assures simplified access to patient details for all authorized individuals.

Benefits

- Ensures round-the-clock accessibility to patient information, allowing individuals to connect and access their records from anywhere they are located
- Facilitates seamless communication among Anova, facilities, patients, and family members, promoting effective collaboration and information sharing
- Provides convenient access to enhance efficiency and ultimately increase patient satisfaction
- Prioritizes the secure delivery of information, ensuring the privacy and confidentiality of patient data

Key Features

Time Sheet & Visit Schedule

Offers access to the clinical Timesheet and Visit Plan for clarity on all discipline visit schedules and changes. This feature aids in monitoring patient appointments, giving clear insight into the care routine and preventing patient care delays by keeping facility staff well-informed and prepared for each visit.
